BLANOVA VITAMIN E ACETATE PH EUR	Tocopheryl Acetate	0.50	Blanova
COS Green Clay Ultra Ventilated	Illite, Montmorillonite, Kaolin	30.00	Argille du Velay

MIXING INSTRUCTIONS

Mix the components of PHASE A and PHASE B by heating at 85-90°C, separately. When reached the same temperature, proceed to the emulsion process by adding PHASE B to PHASE A and then homogenize at maximum speed for 10 minutes. Once the emulsion is completed, proceed to cooling at temperature of 35 °C. Then add PHASE C and emulsify until the final compound is homogeneous.
